**DISPOSITION**

- Gentle with all animals and people
- Loves children and all other dogs & cats
- Needs to be with her people

She is approx 1 year old, rescued from Sammies friends last February. She was adopted when her mom worked from home and had a financial ability to care for her. Mom went through a very difficult loss of employment, and now works away from home and is moving in with family to survive financially. Mom doesn't have an ability to bring her to the new housing situation, and also she is lonely being home alone all day.

Her ideal situation would be with a family where she had companionship during the day, walks (she loves trail walking, hiking and lake days!!) She would do great in a family with other pets or children. She would not do well being left alone or treated harshly.
