## Silver the Rooster

“Silver” was intended to be a " HEN", I purchased a pullet. All was fine for just a month or two & then it became obvious that she was a ROOSTER! He has beautiful grey/silver tail , & under body feathers. He is kind to me !

SOOO my 8 year old Maran mix rooster “Romeo” and “Silver” are not getting along. I am grateful for any help you can offer to find a safe , loving home for Silver. My chickens are very well cared for. They live in a heated/air conditioned pyramid that I designed & had built. There are both Security doors & double pane doors. It has a redwood deck, Velux skylights & is some 3 feet above ground to offer them cover from flying birds of prey. There is fencing 50 ft. on all sides & wrought iron gates They are well fed with organic grains, home made coleslaw & other foods. I am sorry that “Silver “& “Romeo” cannot live here together in peace!

Thank-You for your caring & assistance.

Peace & Love,
