

COURTESY LISTING BOOTS

Hello future fur parent,

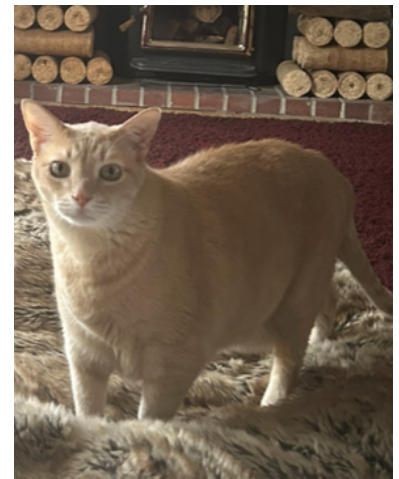

I am an orange tabby cat named Boots... but I will come to any name you call when you have food for me!

I was rescued from Sammie's Friends years ago when my mom that I was raised by passed away and her family couldn't take me in.

I've been living with my new family and providing their entertainment and all the cuddle time they could want!

My new family has changed in the last year.. the kids have gone away to college and live on their own now and my fur mom had a bad bout of Covid and now has lasting health issues and can't have animals at home right now with no one their to spend time with them. 😞

I am great with dogs and children... not sure about being around other cats... I'm kinda the head guy in charge at my house and like it that way lol 😊

Please call my fur mom with any questions about me!!!

I come fully equipped with my own cat carrier, toys, food and water containers and 2 large bags of dry food!! Oh also my own cat tree which I use to stretch my claws on... I do NOT scratch furniture, pee anywhere but my litter box and I have NEVER jumped on any counters in my home and respect all food areas. I'm a very healthy kitty cat!
