Sammy

Hi, this is Sam she's a 5 year old female rag doll. She was handed to me as a kitten from someone who couldn't care for her. Shortly after I realized she was blind. I've taken care of her since. She is special needs to a point, other wise she's a happy indoor kitty. She does get along with dogs but would need some adjustment time. Sam is very sweet and just wants love, and I just don't have time like I once did for her.

I will hand over all records to new owner. She is spayed, and I just recently did a full blood work and urinary test on her she is good to go on all of that.

Please feel free to text me 530-263-9665, calling is more difficult as I work 5/10hr days.

Thanks -Emilee
