

COURTESY LISTING

GNARLA

Name: Gnarla
Age: 11 years old
Sex: Female and is spayed
Breed: lab/pit mix
Training: knows basic commands/ house trained

Personality: Mellow, sweet and friendly. She is good with kids, as we have a 1 1/12 year old. She is very quiet unless someone knocks, makes noise outside our door or comes inside our apartment. She has never been aggressive with people, and she is not aggressive with other dogs unless they approach her aggressively. She is good on a leash, has no health problems and is current on all vaccinations. She likes to be with someone all the time, which is part of the reason we are having to make this decision, we cannot do this due to our lifestyle and growing family. We would love to see Gnarla go to a good and loving home , with people who can spend more time with her than we can.

Please contact me if you need anymore information, thank you.
