

COURTESY LISTING ~ Sam

I have a very cute, goofy and smart Australian Cattle dog that needs to be rehomed. I have to re-home and we're unable to find a place to take him along with us.

He is a six-year-old, tri color with a bundle of energy. He is used to living in a duplex with no fence and has always been on leash outside. I am not sure how he would be with other animals. We have a cat that he gets along fine with. The other dog we had tolerated him, they had no trouble together. I think he would do better as an only dog. Likely, he would need to be introduced slowly to other animals or people. He can be reactive and a lot to handle but I think he would bond with someone who could give him some attention and has space to run. He also enjoys guitar music as he grew up with it. My contact info is Angela 530-477-6312.
