

Dog needs to be re-housed, FREE

Widget came to live with us after our dear friend and neighbor passed away about a year and a half ago. Unfortunately, he is not a good fit for our home. Widget needs to get his energy released every day. He currently gets a 3 mile walk daily which keeps him calm for the remainder of the day. He requires a large fenced yard or a dedicated, daily walking companion. Widget is a senior, high-energy, herding breed who is not motivated by hugs and cuddles- for him it's about the food being offered! Since he's been with us we've leash trained him, taught him not to jump (unless invited), comes when called, sits, and takes his snacks "easy".
