

COURTESY LISTING

GIZMO

Gizmo is a 6 year old male short hair (mostly white with some ginger spots, one spot that looks like a heart on his back) he is neutered and microchipped. He is a huge cuddle bug and loves being on his persons chest or lap. He will do anything and everything to wiggle his self so he can cuddle with them, he's very persistent. He will magically poof next to you whenever he hears the possibility for a treat of wet food - he's a bit of a foodie. He loves sunbathing by the window and watching birds outside, but he's a bit of a scaredy-cat when it actually comes to going out side for walks. He will tolerate dogs but isn't quite ready to be friends with them or play, but with the right dog he will have no problem sharing the bed with them or cuddling with them.

If you are interested in making him part of your family please call or text me at (530) 282-8292 or email me at lunarowl87@yahoo.com. I do need to find him a home before March 1st, or I become homeless.
