

COURTESY LISTING

Gary and Whiskey

I am currently fostering both boys for a friend who had a family emergency and needed to move. They are 1/2 McNab and 1/2 Catahoula. I was told these two live outside, however they are curious about coming inside.

Both Whiskey and Gary are males and love being together. They are both neutered and friendly with people. I am not sure about younger kids but very sweet with teens. They are both approximately 50-60 lbs.

We are looking to re home them as my house is not giving them the happy time they need. They are both active and love playing in water. I am happy to answer any questions that I can.
