

# COURTESY LISTING

## JACK

Jack is a one-year-old Border Collie/Lab mix. He is neutered and current on his vaccinations. His next round of vaccinations are due in August. He was adopted at four months old at the Placer County Animal Services Shelter in Auburn, CA. Jack has grown to be quite larger than anticipated and while it's incredibly difficult to search for a new, loving, caring, nurturing home, he really needs more outdoor space to run and play. He's an indoor/outdoor dog yet prefers outdoors. He would benefit greatly from having a buddy his size or close to it to play with. Jack turned one year old on March 20. He is 55 pounds and in excellent health/shape/fitness. His nails were just trimmed recently! He responds very well to his name. He was potty-trained within two weeks. He loved to play ball and run and play. He is leash-trained and is walked daily. Jack was socialized immediately and is very nice and friendly to dogs and humans of all sizes. Jack absolutely loves to snuggle and cuddle...he loves hugs! Jack would benefit greatly to be adopted by a family who lives on acreage. He is at a great age to train for a specific task or job. Please reach out if you would like to meet Jack and possibly bring him to his new home. No rehoming fees...just an assurance he will be well cared for. Thank you!
