

Nugget  
the dog  
needs a

forever home!

Nugget is an **extremely sweet**, approx. **8-month-old girl** who was rescued from living in a grocery store parking lot on the Navajo Reservation. Despite a rough start to her young life, she is a **well-adjusted happy dog!** She is **house-trained** and is working on her basic commands. She is a **sheep dog mix** with a very even temperament. **Loves everyone** – dogs and humans. She is a big snoozer and can **fall asleep ANYWHERE**. Nugget has been cleared by the vet and has **no health issues**. By the time she is adopted, she will have had **all her vaccines**. New owner will be responsible for spaying (she is an existing patient at Motherlode in GV).

Her rescuers already have two resident dogs and can't keep her but that is your gain because **you will be getting a Nugget of Gold!** She will make a great adventure and companion dog. She would also be a good family dog. We will have a quick pre-screening call to find out if this would be a good fit for all and if so set up an appointment for you to come visit and meet nugget in Penn Valley, CA.
