

# COURTESY LISTING

## Rocky and Shasta

Due to changes in our living situation over the past couple years, we have decided we would like to try to find a new home for our two huskies.

They're brother and sister we've had them about nine years. The boy is Rocky the girl is Shasta. They have been seen at Brighton Green since we got them as puppies.

They are both really loving and playful. They sometimes try to be escape artists, but if they do get out, they always come back. We do have them microchipped. Also both were fixed.

Shasta has a little bit of a limp from an injury a couple years ago.

Let me know if you need any other information!
