

COURTESY LISTING

Lightning

Lightning is a great companion for anybody looking for a pet. He knows basic commands sit, stay, go to bed, down ,out of kitchen, leave it. He should be an only dog, he has food and toy aggression which is my ONLY reason for rehoming home I have two other pets. He is mellow, walks on a leash fine. Perfect pet except for the food and toy issues towards other animals I can stick my hand in his bowl and take toys away from him but other dogs he doesn't let do it, which is a problem in my home.

He will need to be rechecked with your information, probably refreshment training course to get bonded with you and a yard, he likes fetch and warm fires.

If he loves to snuggle, we will miss him but he deserves a better matched home for his needs.
