

COURTESY LISTING

Goats

Due to changed circumstances, we are looking for loving homes for most of our goats and some sheep. These goats are very nice milk lines and they also make good brushers and pets. Some are mini LaManchas and some are standard sized LaManchas. Some are registered stock, some not. Some have horns, but most do not. I will be adding more goats to this listing but if there is any specifications you may have, contact me directly. Homes must have good goat fencing and shelter from the elements and predation. Lime and Domino are siblings and do very well together. I also have East Friesian dairy sheep needing homes. If you would like to get more information on these goats or sheep, please contact me directly at smbardsley@gmail.com.
(A rehoming fee will apply.)
