

COURTESY LISTING

Belle

Belle or KiKi as we call her. She was abandoned in Carmichael CA, found at a construction site. Taken to Mother Lode Vet. Up to date on vaccines as of 2019 or 2020. They thought she was around 9 yrs. or so at that point.

She is probably a Siamese/Ragdoll mix. She looks Siamese but loves to be hung upside down, loves to be brushed and talks a lot. She was an inside cat for a bit but loves to be outside. Although she only uses a litter box even outside. She is a good hunter; lizards, rats and one vole. She has an outside heated bed for Winter that she loves. Healthy. Never wanders far. We have too many predators for her safety here. Between the coyotes, a mountain lion we've seen in the yard and rattlesnakes (two on our deck) we'd like to find her another home. ASAP.

Due to allergies we can not have her in the house. She sheds a lot. Even with brushing. She does not get along with other animals, at least not at first. She was in a house before us with other dogs and cats and was fine but very defensive with her territory upon meeting new friends. She would probably be better off in a household with no other animals. Not aggressive with people at all. Quite the suck up. ;)

Well, I believe that's about it. Let me know if you need any other information. We have tried to find her a home as a barn cat but it seems everyone is full. And again, we'd like to find her a loving and safe home. Thanks so much for your help.
