

COURTESY LISTING

RIVER

River is a field rescue that was found wandering about a month ago and unclaimed. He is neutered, up to date on vaccines and is now microchipped. He also tested negative for heart worms and is on preventative. He is believed to be about 3 years old. He's got along with both female and male dogs with proper introduction. He also walks very gentle on leash.

Thanks Kim 530-320-9500
