

COURTESY LISTING

Kami

Seeking new home for vibrant Australian Cattle Dog

Kami is an adorable high energy purebred blue cattle dog

Specifics:

Two years old, birthdate May 2023

35 pounds, spayed

Current on all vaccinations including Lepto and Bordetella

Current on flea and tick prevention

Microchipped

Crate trained. Clicker trained

Harness and leash trained. Muzzle trained (in progress)

Skills/Attributes:

All basic obedience, sit, stay, down, come, leave it.

Very food motivated, super intelligent, learns quickly.

Fluent in many behavioral enrichment games.

High ball drive, exuberantly chases and plays fetch.

Loves the flirt pole and tug rope.

Excellent car/truck traveler crated in back seat.

Sits quietly on leash while bicycles, strollers, cars or garbage truck pass by.

Builds strong bond to her people. High desire to stay close.

Meets new people in an appropriate manner. Is cautiously friendly.

Easily tolerates loud noises such as construction equipment and work crews.

Challenges:

Kami is highly dog/leash reactive. Kami and I have been working with Leeron Liftik for many months to address her dog/leash reactivity. Kami is showing good progress in her behavioral sessions with Leeron but Kami has become aggressive to her small dog housemates and has attacked them on several occasions. My husband has a terminal illness and I am his full-time caregiver. Kami's unsafe behavior towards our small dogs has sadly become unmanageable and I hope that she can find a new loving home where she can thrive and shine.

Strongly recommend that Kami is the only dog in the home.
