### Meet Bean!

#### Bean

Bean is about 2 years old, spayed, microchipped, and vaccinated. She's a little shy, but warms up quickly and loves to cuddle. Her favorite toys are the little ties that come on produce bags. She's a long-haired, mostly black girl a gray bib and beautiful eyes. She looks a little like a bambino kitty because of her tiny little legs. She's litter-trained, but can be particular about her litter. She prefers something with a finer consistency. She gets along with other animals. She's been an indoor cat.
