**Meet Mrs. Pickles**

Mrs. Pickles needs a new home. Her living situation has changed and she needs a new indoor home. She has been fostered for two weeks, and is super sweet, purrs constantly, totally tidy with her potty habits, a great cat. The problem is the foster's 2 1/2 year old dog wants to eat her. She is 8 year old spayed female DSH indoor only, probably not current on vaccinations. Super sweet had bad dandruff when brought home but since have had her on good quality food and she's been getting sunshine and it seems better.
