Meet Squeaker!

My name is Squeaker, but you can call me anything as long as you scratch under my chin. I am a sweet girl about 12 looking for a quiet home. I can be a little shy but warm up and like to be pet, brushed, and play a little. I am afraid of children and dogs, and I have not been around other cats for years. I was the best companion for elderly owners for the past ten years. They both passed this past year and I am seeking the next human to love and a quiet home. I have a lot of fur and need daily brushing. I went to the vet yesterday and got my rabies vaccine, negative FLV/FIV and heartworm, and a pretty clean bill of health. I was such a good girl and a few staff members just fell in love with me. The only issue noted was some dental needs which will be taken care of before I go to my new home. I will be missing some teeth but otherwise in good health. Some funny things about me are that I do not make noise. My owners rescued me between age 1-2 and I already made no noise. You can feel me purr but you cannot hear it. That's how I got my name because when I open my mouth just a little whisper comes out. Another thing... I have never liked to use scoopable/clumping litter. You might be able to convince me but I am a Johnny Cat kitty. I also won't sit on your lap if you are wearing shorts, but will stare at you until you put a blanket on your lap or put on some pants so I can get on your lap and get scratches and pets. I know I am a little quirky but when you are this gorgeous you get to be. These photos just do not do me justice, but I was too busy trying to get pet to want to stand still for the camera.

Please let me know if I can get you any other info that might help, Jenny Anderson 916-402-7741
