Meet Bailey!

"Bailey or her nickname Bailey boo, or just boo is about 2 years old now she is very sweet when she comes out of her shell and is very playful loves to play with her toys. She is definitely a cuddlebug in the morning and at night. She is such a smart girl very treat motivated she knows sit, lay down, sit pretty, side, and spin she loves to do the agility course at the dog park as well. She is a very energetic dog and needs to be with someone who will be very active. She does well with children but has difficulty with new people and tall men she is normally frightened by them. She doesn't do to well in car rides it makes her nervous and she likes to pull on the leash but she's working on getting better at it. Bailey isn't too fond of the water and doesn't care for bathes or swimming that much she would rather play outside or inside to take a nap. She rarely ever barks she's a very quiet dog but when she does it's a very deep bark and instead of barking normally it's a whine. She likes to look out the window a lot and watch what's outside. She likes to dig a lot so if she were to be in a fenced yard it would be best if she was on a lead or watched to make sure she doesn't escape. She is definitely the alpha and would be best suited the only animal in the house she doesn't do that well with other dogs or cats." **My cell number is (530)990-0105**
